Technical Skills

Coding languages that I have experience working with are HTML, CSS, and Javascript. I also have experience with github, vscode, and bootstrap.

Projects

Coded-19-app

This is an app designed to give covid-19 information on select west coast states and also allow users to search New York Times articles for more information.

<https://elijahig.github.io/Coded-19-app/>

Weather-dashboard

This is an app that allows users to type in the name of a city and be presented with current weather information along with the forecast for the next five days.

<https://elijahig.github.io/weather-dashboard/>

Work-day-scheduler

This is an app so a user can input tasks into a schedule and have the current time display red, the future green, and the past yellow. Also all tasks will be saved to local storage for the future.
